

# Augment ECS Automation

Are you still doing your ECS processing manually?

Facing problem in tracking paper instrument?

Having problem ensuring timely settlement?

## How we do it

- 1 Browser based solution
- 1 Handles both ECS credit and ECS debit
- 1 Complete process automation
- 1 Tracking of transactions at each step till closure
- 1 TAT for each step
- 1 Business rule based charge calculation and levy of the same
- 1 Automated unique reference number for each transaction
- 1 Comprehensive validation engine
- 1 Automated posting in CBS
- 1 Automated return file generation
- 1 Eod/Qtr ly report of incoming/outgoing transactions

## Why ECS Automation

- 1 Reduced processing cost per transaction
- 1 Reduced settlement time for each transaction
- 1 Real-time view at transaction level
- 1 System initiated reconciliation
- 1 Resource optimization
